

Donation

Taipei resident Mr. Lin Min-chien (林敏健) donated over 1,500 Japanese volumes on Sinology from the collection of his father Lin Lung-piao (林龍標). The collection consists principally of books on classical and modern literature published between the Showa and Heisei periods. Many of the volumes are out of print, making them a rare and valuable addition to the Chinese studies. On June 8, representatives from the NCL Acquisition Department visited Lin's home to present a plaque of gratitude for the generous gift.
